

Accidents

Minor accidents that occur during the school day are treated by the school nurse or health aide. If the injury appears serious, the health office personnel will call a parent/guardian. If a parent/guardian cannot be reached, the health office personnel will call an emergency contact provided on the yellow Student Health Information card. If a parent/guardian or a designated emergency contact is not available and the injury requires immediate attention, the child will be taken to the nearest hospital by paramedics. The school nurse, health aide, or the principal will accompany the child while school staff continues to try to locate the parent.

Please be sure that all emergency information is up to date on the Student Health Information card. The emergency contacts you list should be within close proximity of the attendance school. The people listed as the student's emergency contacts also should be made aware of their status and be available to act on your behalf in an emergency.
