## Board of Education Highlights

April 19, 2010

### Scholastic Bowl State Champs

The Lisle Senior High School Scholastic Bowl Team and Coach Yousef Matariyeh were congratulated by the Board of Education for their outstanding accomplishment of winning the IHSA Class A State Championship. Their season will continue as they will compete in a National Championship tournament in Virginia during the first week of June.

### LSHS Academic Options

Dr. Chris Messina, District #202 Curriculum Director, and Ron Logeman, LSHS Principal, reviewed academic opportunities for students at Lisle Senior High School. Programs reviewed included AP courses offered including a new Environmental Science AP course, the Opt-In option for students to request honors level classes and the efforts to establish a dual credit course (Accounting) giving students both high school credit and College of DuPage credit when they successfully complete the course.

### NCA Accreditation

The Board accepted an administrative recommendation to no longer participate in formal North Central Association accreditation. The rationale was that our school improvement process provided our schools with similar opportunities to review and enhance our educational programs. A review of several colleges and universities indicated continued affiliation with NCA would have no impact on our students candidacy for acceptance.
