

First and second graders have art once a week for an hour. The DBAE (Discipline Based Art Education) instruction method is taught to all students. This method exposes students to the studio aspect of art and also to its history and cultural influences. Students learn about different artists and how to create art using a variety of media and techniques. I encourage individual expression and creativity and display student work throughout the school to show students that their work is valued.

"Every artist dips his brush in his own soul,
and paints his own nature into his pictures."

- Henry Ward Beecher
