

## LEHSO - Lisle Elementary Home and School Organization

The LEHSO is active in the schools in a variety of ways, from parents who volunteer their time and energy to supporting school programs and fund-raising efforts, a number of which are service-oriented events. Through the many programs it offers, the LEHSO creates a broader and richer educational experience for all our students, and helps provide the teachers with tools they can use to expand learning opportunities. We are so appreciative of their hard work and commitment to our school. The education of a child is a collaborative process and we are pleased to have such a great partner in the LEHSO. The staff at Tate Woods Elementary School sends a big thank you to the LEHSO. If you'd like to get involved and offer support, please visit
