## Board of Education Highlights

March 15, 2010

### Staffing Report

The staffing plan for the 2010-11 school year was approved. The final staffing recommendation is a total reduction of 1.3 teaching positions across the District. A slight decrease in enrollment is of 26 students is anticipated.

### Parent Survey

The District principals presented a plan to address the information gathered from a parent survey offered during the first semester. Approximately 14% of our parents responded by completing the survey.

The strengths of our schools included:

- A welcoming atmosphere for our parents.
- Our curriculum which prepares our students well for the next level of education.
- The priority placed on school safety creating an environment in which students feel safe and protected.

Areas to address for the future include:

- A larger response rate for the survey through better communication and promotion of the survey as well as revising the questions and reformatting the survey design.
- More frequent and detailed communication to parents about their child's progress.
- Bullying prevention programs throughout the district.
