

Spring Into Green!

During the month of April, the Green Team will be promoting a number of eco-conscious activities for the students in support of Earth Day on April 22nd.

Let's get our greening going!

Less-Waste Wednesday Lunches: Pack a no-waste lunch every Wednesday for your student(s) using reusable containers and utensils. **Grade-level competitions will be held during April to see who wastes the least!**

Poster Contest: Have your student design a poster from reclaimed materials (side of a box, back of a former project, etc.) and have them illustrate what they/we can do to help with sustainability and conservation. Artwork will be displayed at the schools and awards will be presented! **Posters Due: April 13th**

For more great information on conservation events in our area go to:
