

Less-Waste Lunch Competition- Wednesdays in November

Let's Join together to reduce our waste!

Did you know a school's lunch room creates 80% of all the waste coming from the school?

Join the Green Team and pack your lunch every Wednesday (or more often) with re-usable containers, utensils and napkins.

Additionally, by spending a few more minutes packing re-usable containers instead of using pre-packaged goods, you can send only the amount the student will consume, greatly reducing overall waste AND your costs!

Each lunch period's waste will be weighed to monitor the students' success.

Which grade will waste the least?

Green Game On!
