FINE ARTS

SUMMER ART ENRICHMENT

📍 LISLE RECREATION CENTER, MP ROOM 4 | 1925 OHIO STREET, LISLE

This art enrichment and studio series involves learning about an artist, their time period, styles and techniques. Participants will have a better understanding of the art, as well as work towards creating art in that style.

SESSION 1: CLAUDE MONET

Claude Monet was one of a group of painters who created the style of art called 'Impressionism'. This style of art captures the quality of light and atmosphere of a subject under particular lighting or weather conditions. The technique creates colors and tones that have more natural appearance than anything achieved by traditional methods of painting. Monet did not mix up his colors before he painted them, but broke them down into their separate hues and then painted them in small strokes of pure color next to each other.

SESSION 2: ANDY WARHOL

Andy Warhol was a successful and highly paid commercial illustrator in New York before he began to make art destined for galleries. His screenprinted images of Marilyn Monroe, soup cans, and sensational newspaper stories quickly became synonymous with Pop art.

SESSION 3: VINCENT VAN GOGH

Vincent Van Gogh used his emotional and spiritual state in each of his artworks. He is one of the most popular artists of all time, even though he only sold one piece of art his entire lifetime. He uses visible brushstrokes in a bright palette and each painting provides a direct sense of how the artist viewed each scene. His emotional style has continued to affect artists and movements throughout the 20th century and up to the present day.
