# INTRODUCTION

Welcome to Lisle CUSD 202. This handbook will familiarize you with our schools and answer some questions you may have about programs and policies. State and Federal laws require school districts to notify parents and students about certain rights, responsibilities and procedures. This handbook reflects Board policy as of the date of printing. Updated policies may modify some of the information and such changes will be effective as of the date of Board adoption. This handbook is not meant to take the place of personal communication between the home and school. Please feel free to contact the school your child attends if you have questions regarding programs or procedures. Please take time to acquaint yourself with each section of this booklet. Attending school is an important journey for your child. Students prove to be successful on this journey when they follow procedures and school expectations. We are truly partners in education and together we will have an excellent year.

## MISSION STATEMENT

Lisle District 202 is committed to providing our learning community with the education, skills, and experiences for future success.

## EQUITY STATEMENT

Equal educational and extracurricular opportunities shall be available for all students without regard to color, race, nationality, religion, sex, sexual orientation, ancestry, age, physical or mental disability, gender identity, status of being homeless, order of protections status, actual or potential marital or parental status, including pregnancy. Further, the District will not knowingly enter into agreements with any entity or any individual that discriminates against students on the basis of sex or any other protected status, except that the District remains viewpoint neutral when granting access to school facilities. Any student may file a discrimination grievance by using the Uniform Grievance Procedure found in Policy 2:260 in the Board Policy Manual. The Manual is available online at the [District website](#).

All visitors, including parents and siblings, are required to enter through the front door of the building and proceed immediately to the main office. Visitors should identify themselves and inform office personnel of their reason for being at school.

At this time, visitors will need to present a government issued I.D. (ie., driver's license or state I.D.) scanned into our Raptor system to gain entrance into the building. Visitors must wear a nametag on a lanyard the entire time they are in the building. Approved visitors must take a tag identifying themselves as a guest and place the tag on their outer clothing in a clearly visible location. Visitors are required to proceed immediately to their location in a quiet manner. All visitors must return to the main office and sign out before leaving the school.

Visitors are expected to abide by all school rules during their time on school property. A visitor who fails to conduct himself or herself in a manner that is appropriate will be asked to leave and may be subject to criminal penalties for trespass and/or disruptive behavior.

### **1.50 - Equal Opportunity and Sex Equity**

---

## **1.60 - Animals on School Property**

In order to assure student health and safety, animals are not allowed on school property, except in the case of a service animal accompanying a student or other individual with a documented disability. This rule may be temporarily waived by the building principals in the case of an educational opportunity for students, provided that (a) the animal is appropriately housed, humanely cared for, and properly handled, and (b) students will not be exposed to a dangerous animal or an unhealthy environment.

---

## **1.70 - School Volunteers**

All school volunteers must complete the "Volunteer Information Form" and be approved by the school principal prior to assisting at the school. Forms are available in the school office. Some teachers utilize parent volunteers in the classroom. The individual teachers make this decision. Teachers who desire parent volunteers will notify parents. For school-wide volunteer opportunities, please contact the building principal.

Volunteers are required to check in and out at the main office and receive a visitor badge before going to their destination.

---

## **1.80 - Invitations & Gifts**

Party invitations or gifts for classmates should not be brought to school to be distributed. Items such as these are of a personal nature and should be mailed home using the list in the school directory. The office is unable to release addresses and phone numbers of students who are not listed in the school directory.

---

## **1.85 - Treats and Snacks**

Due to health concerns and scheduling, treats and snacks are not to be distributed in the classroom.

---

## **1.90 - Emergency School Closings**

In cases of bad weather and other local emergencies, the District voice mail system is equipped to dispense emergency closing information. School closing or early dismissal announcements will also be available on the district website ([www.lisle202.org](http://www.lisle202.org)) and any local radio or television station. School closings for any reason will be announced by 5:00 a.m. If bad weather or other emergency occurs during the day, please listen to local media stations for possible early dismissal information.

For your child's safety, make certain your child knows ahead of time where to go in case of an early dismissal. If we dismiss early for an emergency, all after-school functions are automatically canceled.

### **1.100 - Video and Audio Monitoring System**

---

A video and/or audio monitoring system may be in use on school busses and a video monitoring system may be in use in public areas of the school building. These systems have been put in place to protect students, staff, visitors and school property. If a discipline problem is captured on audiotape or videotape, these recordings may be used as the basis for imposing student discipline. If criminal actions are recorded, a copy of the tape may be provided to law enforcement personnel.

### **1.110 - Accommodating Individuals with Disabilities**

---

Individuals with disabilities will be provided an opportunity to participate in all school-sponsored services, programs, or activities. Individuals with disabilities should notify the superintendent or building principal if they have a disability that will require special assistance or services and, if so, what services are required. This notification should occur as far in advance as possible of the school-sponsored function, program, or meeting.

### **1.120 - Students with Food Allergies**

---

State law requires our school district to annually inform parents of students with life-threatening allergies or life-threatening chronic illnesses of the applicable provisions of Section 504 of the Rehabilitation Act of 1973 and other applicable federal statutes, state statutes, federal regulations and state rules.

If your student has a life-threatening allergy or life-threatening chronic illness, please notify the appropriate school health office.

Federal law protects students from discrimination due to a disability that substantially limits a major life activity. If your student has a qualifying disability, an individualized Section 504 Plan will be developed and implemented to provide the needed supports so that your student can access his or her education as effectively as students without disabilities.

Not all students with life-threatening allergies and life-threatening chronic illnesses may be eligible under Section 504. Our school district also may be able to appropriately meet a student's needs through other means.

### **1.130 - Care of Students with Diabetes**

---

If your child has diabetes and requires assistance with managing this condition while at school and school functions, a Diabetes Care Plan must be submitted to the appropriate school health office. Parents/guardians are responsible for and must:

- a. Inform the school in a timely manner of any change which needs to be made to the Diabetes Care Plan on file with the school for their child.
- b. Inform the school in a timely manner of any changes to their emergency contact numbers or contact numbers of health care providers.
- c. Sign the Diabetes Care Plan.
- d. Grant consent for and authorize designated School District representatives to communicate directly with the health care provider whose instructions are included in the Diabetes Care Plan.

For further information, please contact the appropriate school health office.

### **1.140 - Suicide and Depression Awareness and Prevention**

---

Youth suicide impacts the safety of the school environment. It also affects the school community, diminishing the ability of surviving students to learn and the school's ability to educate. Suicide and depression awareness and prevention are important goals of the school district.

The school district maintains student and parent resources on suicide and depression awareness and prevention. Much of this information, including a copy of school district's policy, is posted on the school district website. Information can also be obtained from the school office.

## **2.10 - Attendance**

---

Illinois law requires that whoever has custody or control of any child between six (by September 1st) and seventeen years of age shall assure that the child attends school in the district in which he or she resides, during the entire time school is in session (unless the child has already graduated from high school). Illinois law also requires that whoever has custody or control of a child who is enrolled in the school, regardless of the child's age, shall assure that the child attends school during the entire time school is in session.

There are certain exceptions to the attendance requirement for children who: attend private school, are physically or mentally unable to attend school (including a pregnant student suffering medical complications as certified by her physician), are lawfully and necessarily employed, are between the ages of 12 and 14 while in confirmation classes, have a religious reason requiring absence, or are 16 or older and employed and enrolled in a graduation incentive program.

## **2.20 - Student Absences**

---

There are two types of absences: excused and unexcused. Excused absences include: illness, observance of a religious holiday, death in the immediate family, family emergency, situations beyond the control of the student, circumstances that cause reasonable concern to the parent/guardian for the student's safety or health, or other reason as approved by the building administration. All other absences are considered unexcused. Pre-arranged excused absences must be approved by the building administration.

The school may require documentation explaining the reason for the student's absence.

In the event of any absence, the student's parent or guardian is required to call the school before 8:00 a.m. to explain the reason for the absence. If a call has not been made to the school by 10:00 a.m. on the day of a student's absence, a school official will call the home to inquire why the student is not at school. If the parent or guardian cannot be contacted, the student will be required to submit a signed note from the parent or guardian explaining the reason for the absence. Failure to do so shall result in an unexcused absence. Upon request of the parent or guardian, the reason for an absence will be kept confidential.

Additionally, a student will be excused for up to 5 days in cases where the student's parent/guardian is an active duty member of the uniformed services and has been called to duty for, is on leave from, or has immediately returned from deployment to a combat zone or combat-support postings. The Board of Education in its discretion, may excuse a student for additional days relative to such leave or deployment. A student and the student's parent/guardian are to be responsible for obtaining assignments from the student's teachers prior to any excused absences and for ensuring that such assignments are completed by the student prior to his or her return to school.

## **2.30 - Release Time for Religious Instruction & Observance**

---

A student will be released from school, as an excused absence, to observe a religious holiday or for religious instruction. The student's parent or guardian is required to call the school before 8:00 a.m. to explain the reason for the absence.

Students excused for religious reasons will be given an opportunity to make up all missed work, including homework and tests, for equivalent academic credit.

## **2.40 - Make-Up Work**

---

If a student's absence is excused or if a student is suspended from school, he/she will be permitted to make up all missed work, including homework and tests, for equivalent academic credit. Students who are unexcused from school may not be allowed to make up missed work.

## 2.50 - Truancy

---

Student attendance is critical to the learning process. Truancy is therefore a serious issue and will be dealt with in a serious manner by the school and district.

Students who miss 5% or more of the prior 180 regular school days without valid cause (a recognized excuse) are considered chronic truants. Students who are chronic truants will be offered support services and resources aimed at correcting the truancy issue.

If chronic truancy persists after support services and other resources are made available, the school and district will take further action, including:

- Appropriate school discipline
- Referral to the truancy officer or Social Suspension
- Reporting to officials under the Juvenile Court Act
- Referral to the State's Attorney

A parent or guardian who knowingly and willfully permits a child to be truant is in violation of State law.

## 2.55 - Attendance Letters

---

Any documentation in reference to hospitalization or doctor's notes will not count towards a student's absenteeism (the total number of days absent from the current school year). Please refer to the following district-wide attendance letter for a guideline pertaining to student attendance:

Dear Parent/Guardian of [Student's full name],

**We are working to establish regular attendance patterns with all of our District 202 students. Research shows there is a direct relationship between regular attendance, punctuality, and school success. Regular school attendance includes arriving to school on time and attending all classes throughout the day. There is no true substitute for actual classroom instruction.**

**Our attendance records indicate [Student's first name] has accumulated [Number of absences] days of absences during the current school year (or more than 5% of the previous 180 school days).**

We realize that your student's absences may have a valid cause, and communication may have been made to the attendance office. However, Illinois School Code requires a school district to notify a parent/guardian of their student's attendance record. Chronic absenteeism - according to state laws on attendance - is defined as being absent 5% of the previous 180 days (9 days) without valid cause.

### Step 1:

- **Your student has been absent a total of 6 days or more of the current school year.**

If these absences have been the result of illness, injury, or hospitalization, please contact the school nurse office so that appropriate documentation can be filed with the nurse and the attendance office.

If your child's attendance concerns continue and are due to illness, a doctor's note may be required to excuse future absences. You may also be asked to contact the school nurse to sign a consent form to release medical information in order to discuss the medical concerns keeping your child from regular attendance.

### Step 2:

- **Your student has been absent a total of 12 days or more of the current school year. As a result, the following steps will be initiated/continued to promote student attendance:**

**Medical Absences:** Due to your student's continued absences, you must contact the school nurse to discuss your student's health concerns. You will be required to provide a doctor's note for each additional absence due to illness. If documentation is not received within 24 hours after returning to school, the absence will be unexcused. If you are being notified of this after the beginning of 4th quarter, this documentation will also be required throughout the next school year. The doctor's note should include the following: (1) the dates covered by the note, including the date seen by the physician, (2) the nature of the illness that caused the absence, and (3) any information in terms of treatment, medication, or other medical precautions.

**Non-Medical Absences:** Your student will be required to provide documentation for non-medical absences to the building administration. Absences without documentation will be unexcused.

If your student's absences continue, without documentation, it is our responsibility, based on Compulsory Attendance Laws Chapter 105 Articles 26-1 of the Illinois School Code, to refer your student to the DuPage Regional Office of Education (R.O.E.) Truancy Department.

**Step 3:**

- **Your student has been absent a total of 20 days or more of the current school year without the appropriate documentation or has accumulated 9 or more unexcused absences over the past 180 days of school attendance. This letter serves as a formal notification that a referral will be made to the DuPage R.O.E. as to the steps that will follow. Students 17 or older may be subject to social suspension for a time period determined by the building administration.**

School laws are very specific as to a parent's responsibility to ensure regular school attendance. For your student to obtain the maximum benefit from his/her educational experience, it must be a joint responsibility between you, your student, and the school. We look forward to working together with you to help your student succeed in school. Thank you for your cooperation.

Sincerely,

[Building Administration]

## **2.60 - Grading & Promotion**

---

School report cards are issued at the end of each grading period. For questions regarding grades, please contact the classroom teacher.

The decision to promote a student to the next grade level is based on successful completion of the curriculum, attendance, performance on standardized tests and other assessments. A student will not be promoted based upon age or any other social reason not related to academic performance.

## **2.70 - Homework**

---

Homework is used as a way for students to practice what they have learned in the classroom. The time requirements and the frequency of homework will vary depending on a student's teacher, ability and grade level.

## **2.90 Accelerated Placement**

---

The District provides for an Accelerated Placement Program (APP) for qualified students. It provides students with an educational setting with curriculum options that are usually reserved for students who are older or in higher grades than the student. Accelerated placement includes but may not be limited to: early entrance to kindergarten or first grade, accelerating a student in a single subject and grade acceleration. Participation is open to all students who demonstrate high ability and who may benefit from accelerated placement. It is not limited to students who have been identified as gifted or talented. Please contact the building principal for additional information.

## **2.100 - Home and Hospital Instruction**

---

A student who is absent from school, or whose physician anticipates his or her absence from school, because of a medical condition may be eligible for instruction in the student's home or hospital. According to policies set forth by the Illinois State Board of Education, a student who is currently receiving homebound services is not eligible to participate in or attend extra-curricular activities.

A student who is unable to attend school because of pregnancy will be provided home instruction, correspondence courses, or other courses of instruction before (1) the birth of the child when the student's physician indicates, in writing, that she is medically unable to attend regular classroom instruction, and (2) for up to 3 months after the child's birth or a miscarriage.

For information on home or hospital instruction, contact:

Jennifer Law, Director of Student Services

### **3.10 - Fees, Fines & Charges; Waiver of Student Fees**

---

#### Fines, Fees, and Charges; Waiver of Student Fees <sup>1</sup>

The school establishes fees and charges to fund certain school activities, which may include athletics, school-sponsored clubs, field trips, and other course-related fees. Some students may be unable to pay these fees. Students will not be denied educational services or academic credit due to the inability of their parent or guardian to pay fees or certain charges. Students whose parent or guardian is unable to afford student fees may receive a fee waiver. A fee waiver does not exempt a student from charges for lost and damaged books, locks, materials, supplies, and/or equipment.

Applications for fee waivers may be submitted by a parent or guardian of a student who has been assessed a fee. A student is eligible for a fee waiver if the student currently lives in a household that meets the income guidelines, with the same limits based on the household size, that are used for the federal free meals program.

Building administration will give additional consideration where one or more of the following factors are present: <sup>2</sup>

- An illness in the family;
- Unusual expenses such as fire, flood, storm damage, etc.;
- Unemployment;
- Emergency situations; or
- When one or more of the parents/guardians are involved in a work stoppage.

Within 30 days, the building administration will notify the parent/guardian if the fee waiver request has been denied, along with the appropriate appeal process. If you have questions regarding the fee waiver process, you may contact the building administration.

Outstanding fees and charges may result in the loss of participation in school dances and/or graduations ceremonies.

### **3.20 - School Lunch Program**

---

At the High School, students may have the opportunity to purchase breakfast until 7:45 A.M. A student may bring a sack lunch from home or may purchase a school lunch. If a student will not be purchasing a school lunch, parents are encouraged to send a sack lunch with the student in the morning. A student's parent or guardian may deposit money directly into their student's account. All students are expected to use their assigned student ID to purchase a lunch. Free or reduced price meals are available for qualifying students. For an application, contact the building administration.

### **4.10 - Bus Transportation**

---

The district provides bus transportation to and from school for all students living 1.5 miles or more from the school. A list of bus stops will be published at the beginning of the school year before student registration. Parents must, at the beginning of the school year, select one bus stop at which a student is to be picked up, and one stop at which a student is to be dropped off. Students are not permitted to ride a bus other than the bus to which they are assigned. Exceptions must be approved in advance by the building administration.

While students are on the bus, they are under the supervision of the bus driver. In most cases, bus discipline problems can be handled by the bus driver. In the case of a written disciplinary referral, student bus problems will be investigated and handled by a building administrator.

Students are expected to follow all school rules while on the bus. Students may be suspended from riding the school bus for up to 10 consecutive school days for violating school rules or for engaging in other gross disobedience or misconduct. The school board may suspend the student from riding the school bus for a period in excess of 10 days for

safety reasons. The district's regular suspension procedures shall be used to suspend a student's privilege to ride a school bus.

A student who is suspended from riding the school bus and who does not have alternative transportation to school shall be allowed the opportunity to make up all missed work for equivalent academic credit. It is the responsibility of the student's parent or guardian to notify the school that the student does not have alternative transportation to school.

In the interest of the student's safety and in compliance with State law, students are also expected to observe the following:

- Dress properly for the weather. Make sure all drawstrings, ties, straps, etc. on all clothing, backpacks and other items, are shortened or removed to lessen the likelihood of them getting caught in bus doors, railings or aisles.
- Arrive on time at the bus stop, and stay away from the street while waiting for the bus.
- Stay away from the bus until it stops completely and the driver signals you to board. Enter in single file without pushing. Always use the handrail.
- Take a seat right away and remain seated facing forward. Keep your hands, arms, and head inside the bus.
- Talk quietly on the bus. No shouting or creating loud noises that may distract the driver. All electronic devices must be silenced on the bus unless a student uses headphones.
- Help keep the bus neat and clean. Keep belongings out of the aisle and away from emergency exits. Eating and drinking are not allowed on the bus.
- Always listen to the driver's instructions. Be courteous to the driver and other students. Sit with your hands to yourself and avoid making noises that would distract the driver or bother other passengers. Remain seated, keeping your hands, arms, and head inside the bus at all times.
- Wait until the bus pulls to a complete stop before standing up. Use the handrail when exiting the bus.
- Stay out of the danger zone next to the bus where the driver may have difficulty seeing you. Take five giant steps away from the bus and out of the danger zone, until you can see the driver and the driver sees you. Never crawl under a bus.
- If you must cross the street after you get off the bus, wait for the driver's signal and then cross in front of the bus. Cross the street only after checking both ways for traffic.
- Never run back to the bus, even if you dropped or forgot something.

Video and audio cameras may be active on busses to record student conduct and may be used for the purposes of investigation into misconduct or accidents on the bus.

For questions regarding school transportation issues, contact your student's individual school or Westway Coach 630-783-8710.

A student suspended from riding the bus who does not have alternate transportation to school shall have the

opportunity to complete or make up work for equivalent academic credit. It shall be the responsibility of the student's parent or guardian to notify the school that the student does not have alternate transportation.

## **4.20 - Parking**

Each school has available parking for school visitors.

Vehicles MAY NOT be parked or located in the bus lanes or fire lanes at ANY TIME. Bus lanes and fire lanes are clearly marked. Vehicles located in these locations may be ticketed and/or towed by the police.

## **5.10 - Immunization, Health, Eye & Dental Examination**

---

### **Required Health Examinations and Immunizations**

All students are required to present appropriate proof of a health examination and the immunizations against, and screenings for, preventable communicable diseases within one year prior to:

- Entering kindergarten or the first grade;
- Entering the sixth and ninth grades; and
- Enrolling in an Illinois school for the first time, regardless of the student's grade.

Beginning with the 2017-2018 school year, an age-appropriate developmental screening and an age-appropriate social and emotional screening are required parts of each health examination.” and “A student will not be excluded from school due to his or her parent/guardian's failure to obtain developmental screening or social and emotional screening.

Proof of immunization against meningococcal disease is required for students in grades 6 and 12. A diabetes screening must be included as part of the health exam (though diabetes testing is not required). Students between the age of one and seven must provide a statement from a physician assuring that the student was “risk-assessed” or screened for lead poisoning.

Failure to comply with the above requirements by October 15 of the current school year will result in the student's exclusion from school until the required health forms are presented to the school, subject to certain exceptions. New students who register mid-term have 30 days following registration to comply with the health examination and immunization requirements. If a medical reason prevents a student from receiving a required immunization by October 15, the student must present, by October 15, an immunization schedule and a statement of the medical reasons causing the delay. The schedule and statement of medical reasons must be signed by an appropriate medical professional.

### **Eye Examination**

All students entering kindergarten or the school for the first time must present proof by October 15 of the current school year of an eye examination performed within one year. Failure to present proof by October 15, allows the school to hold the student's report card until the student presents: (1) proof of a completed eye examination, or (2) that an eye examination will take place within 60 days after October 15.

### **Dental Examination**

All students entering kindergarten, second and sixth grades must present proof by May 15 of the current school year of having been examined by a licensed dentist within the last 18 months. Failure to present proof allows the school to hold the child's report card until the student presents: (1) proof of a completed dental examination, or (2) that a dental examination will take place within 60 days after May 15.

### **Exemptions**

A student will be exempted from the above requirements for:

- Medical grounds if the student's parent/guardian presents to the building principal a signed statement explaining the objection;
- Religious grounds if the student's parent/guardian presents to the building principal a completed Certificate of Religious Exemption;

- Health examination or immunization requirements on medical grounds if a physician provides written verification;
- Eye examination requirement if the student's parent/guardian shows an undue burden or lack of access to a physician licensed to practice medicine in all of its branches who provides eye examinations or a licensed optometrist; or
- Dental examination requirement if the student's parent/guardian shows an undue burden or a lack of access to a dentist.

## **5.20 - Student Medication**

---

Taking medication during school hours or during school-related activities is prohibited unless it is necessary for a student's health and well-being. When a student's licensed health care provider and parent/guardian believe that it is necessary for the student to take a medication during school hours or school-related activities, the parent/guardian must request that the school dispense the medication to the child by completing a "School Medication Authorization Form."

No school or district employee is allowed to administer to any student, or supervise a student's self-administration of, any prescription or non-prescription medication until a completed and signed School Medication Authorization Form is submitted by the student's parent/guardian. No student is allowed to possess or consume any prescription or non-prescription medication on school grounds or at a school-related function other than as provided for in this procedure.

### **Self-Administration of Medication**

A student may possess an epinephrine auto-injector (EpiPen®) and/or an asthma inhaler prescribed for use at the student's discretion, provided the student's parent/guardian has completed and signed a School Medication Authorization Form. The school and district shall incur no liability, except for willful and wanton conduct, as a result of any injury arising from a student's self-administration of medication or epinephrine auto-injector or the storage of any medication by school personnel. A student's parent/guardian must agree to indemnify and hold harmless the school district and its employees and agents, against any claims, except a claim based on willful and wanton conduct, arising out of a student's self-administration of an epinephrine auto-injector and/or asthma inhaler, or the storage of any medication by school personnel.

Students who are diabetic may also self-carry and self-administer diabetic testing supplies and insulin. Diabetic students must have a separate Diabetes Care Plan. For further information, see: [www.iasb.com/law/diabmats.cfm](http://www.iasb.com/law/diabmats.cfm), Handbook Procedure 1.130 (Care of Students with Diabetes) and Handbook Procedure 1.130-E1 (Exhibit: Authorization to Provide Diabetes Care, Release of Health Care Information, and Acknowledgement of Responsibilities).

## **5.30 - Guidance & Counseling**

- The school will provide written instructions to the parent and guardian regarding appropriate treatment for the communicable disease.

- Parents are required to notify the school nurse if they suspect their child has head lice.
- Infested students will be sent home following notification of the parent or guardian.
- The school will provide written instructions to parent or guardian regarding appropriate treatment for the infestation.
- A student excluded because of head lice will be permitted to return to school only when the parent or guardian brings the student to school to be checked by the school nurse or building principal and the child is determined to be free of the head lice and eggs (nits). Infested children are prohibited from riding the bus to school to be checked for head lice.

Students may be disabled within the meaning of Section 504 of the Rehabilitation Act even though they do not require services pursuant to the IDEA. For students eligible for services under IDEA, the District shall follow procedures for identification, evaluation, placement, and delivery of services to children with disabilities provided in the ISBE Special Education rules. For

those students who are not eligible for services under IDEA, but, because of disability as defined by Section 504 of the Rehabilitation Act of 1973, need or are believed to need special instruction or related services, the District shall establish and implement a system of procedural safeguards. The safeguards shall cover students' identification, evaluation, and educational placement. This system shall include notice, an opportunity for the student's parent(s)/guardian(s) to examine relevant records, an impartial hearing with opportunity for participation by the student's parent(s)/guardian(s), representation by counsel, and a review procedure. The prohibition in this section does not apply to a student's use of asthma or other legally prescribed inhalant medications.
- "Look-alike" or counterfeit drugs, including a substance that is not prohibited by this policy, but one: (a) that a student believes to be, or represents to be, an illegal drug, controlled substance, or other substance that is prohibited by this policy; or (b) about which a student engaged in behavior that would lead a reasonable person to believe that the student expressly or impliedly represented to be an illegal drug, controlled substance or other substance that is prohibited by this policy.

No disciplinary action shall be taken against any student that is based totally or in part on the refusal of the student's parent/guardian to administer or consent to the administration of psychotropic or psychostimulant medication to the student.

## **When and Where Conduct Rules Apply**

The grounds for disciplinary action also apply whenever the student's conduct is reasonably related to school or school activities, including but not limited to:

- On, or within sight of, school grounds before, during, or after school hours or at any time;
- Off school grounds at a school-sponsored activity or event, or any activity or event that bears a reasonable relationship to school;
- Traveling to or from school or a school activity, function, or event; or
- Anywhere, if the conduct interferes with, disrupts, or adversely affects the school environment, school operations, or an educational function, including but not limited to, conduct that may reasonably be considered to: (a) be a threat or an attempted intimidation of a staff member; or (b) endanger the health or safety of students, staff, or school property.

For purposes of these rules, the term "disruption" includes any negative interruption or interference that prohibits the normal operation of the school day as determined by the building administration.

## **Disciplinary Measures**

School officials shall limit the number and duration of expulsions and out-of-school suspensions to the greatest extent practicable, and, where practicable and reasonable, shall consider forms of non-exclusionary discipline before using out-of-school suspensions or expulsions. School personnel shall not advise or encourage students to drop out of school voluntarily due to behavioral or academic difficulties. Potential disciplinary measures include, without limitation, any of the following measures:

- Notifying parents/guardians.
- Disciplinary conference.
- Re-teaching expected behaviors.
- Withholding of privileges.
- Temporary removal from the classroom.
- Return of property or restitution for lost, stolen or damaged property.
- In-school suspension.
- After-school study or Saturday study provided the student's parent/guardian has been notified. (If transportation arrangements cannot be made in advance, an alternative disciplinary measure will be assigned to the student.)
- Community service.
- Social Suspension.
- Seizure of contraband; confiscation and temporary retention of the personal property that was used to violate school rules.
- Suspension of bus riding privileges.
- Suspension from school and all school activities for up to 10 days. A suspended student is prohibited from being on school grounds.
- Expulsion from school and all school activities for a definite time period not to exceed 2 calendar years. An expelled student is prohibited from being on school grounds.
- Transfer to an alternative program if the student is expelled or otherwise qualifies for transfer under State law.
- Notifying juvenile authorities or other law enforcement whenever the conduct involves criminal activity, such as, illegal drugs (controlled substances), "look-alikes," alcohol or weapons or in other circumstances as authorized by the reciprocal reporting agreement between the District and local law enforcement agencies.

The above list of disciplinary measures is a range of options that will not always be applicable in every case. In some circumstances, it may not be possible to avoid suspending or expelling a student because behavioral interventions, other than a suspension or expulsion, will not be appropriate and available, and the only reasonable and practical way to resolve the threat and/or address the disruption is a suspension or expulsion.

All students in violation of any of the previous mentioned infractions will be entitled to due process.

## **Corporal Punishment**

Corporal punishment is illegal and will not be used. Corporal punishment is defined as slapping, paddling, or prolonged maintenance of students in physically painful positions, or intentional infliction of bodily harm. Corporal punishment does not include reasonable force as needed to maintain safety for students, staff, or other persons, or for the purpose of self-defense or defense of property.

## **Weapons Prohibition**

A student who is determined to have brought one of the following objects to school, any school-sponsored activity or event, or any activity or event that bears a reasonable relationship to school shall be expelled for a period of not less than one year but not more than 2 calendar years:

- 1) A firearm, meaning any gun, rifle, shotgun, weapon as defined by Section 921 of Title 18 of the United States Code, firearm as defined in Section 1.1 of the Firearm Owners Identification Card Act, or firearm as defined in Section 24-1 of the Criminal Code of 1961. The expulsion period may be modified by the superintendent, and the superintendent's determination may be modified by the board on a case-by-case basis.
- 2) A knife, brass knuckles or other knuckle weapon regardless of its composition, a billy club, or any other object if used or attempted to be used to cause bodily harm, including "look alikes" of any firearm as defined above.

The expulsion requirement may be modified by the superintendent, and the superintendent's determination may be modified by the Board on a case-by-case basis.

## **Gang & Gang Activity Prohibited**

"Gang" is defined as any group, club or organization of two or more persons whose purposes include the commission of illegal acts. No student on or about school property or at any school activity or whenever the student's conduct is reasonably related to a school activity, shall: (1) wear, possess, use, distribute, display, or sell any clothing, jewelry, paraphernalia or other items which reasonably could be regarded as gang symbols; commit any act or omission, or use either verbal or non-verbal gestures, or handshakes showing membership or affiliation in a gang; or (2) use any speech or commit any act or omission in furtherance of the interest of any gang or gang activity, including, but not limited to, soliciting others for membership in any gangs; (3) request any person to pay protection or otherwise intimidate, harass or threaten any person; (4) commit any other illegal act or other violation of district policies, (5) or incite other students to act with physical violence upon any other person.

## **Re-Engagement of Returning Students**

The building principal or designee shall meet with a student returning to school from an out-of-school suspension, expulsion or alternative school setting. The goal of this meeting shall be to support the student's ability to be successful in school following a period of exclusion and shall include an opportunity for students who have been suspended to complete or make-up missed work for equivalent academic credit.

## **6.40 - Prevention of and Response to Bullying, Intimidation, and Harassment**

---

Bullying, intimidation, and harassment diminish a student's ability to learn and a school's ability to educate. Preventing students from engaging in these disruptive behaviors and providing all students equal access to a safe, non-hostile learning environment are important school goals.

Bullying, intimidation, or harassment on the basis of actual or perceived race, color, national origin, immigration status, military status, unfavorable discharge status from the military service, sex, sexual orientation, gender identity, gender-related identity or expression, ancestry, age, religion, physical or mental disability, order of protection status, status of being homeless, or actual or potential marital or parental status, including pregnancy, association with a person or group with one or more of the aforementioned actual or perceived characteristics, or any other distinguishing characteristic is prohibited in each of the following situations:

- During any school-sponsored education program or activity.
- While in school, on school property, on school buses or other school vehicles, at designated school bus stops waiting for the school bus, or at school-sponsored or school-sanctioned events or activities.

- Through the transmission of information from a school computer, a school computer network, or other similar electronic school equipment.
- Through the transmission of information from a computer that is accessed at a non-school-related location, activity, function, or program or from the use of technology or an electronic device that is not owned, leased, or used by the school district or school if the bullying causes a substantial disruption to the educational process or orderly operation of a school.

Bullying is NOT a single act of teasing. Bullying is defined as using any form or type of aggressive behavior that does physical or psychological harm to someone else and/or urging other students to engage in such conduct. Prohibited aggressive behavior includes the use of violence, force, noise, coercion, threats, intimidation, fear, or other comparable conduct toward anyone or urging other students to engage in such conduct. Conduct constituting bullying will not be tolerated. “Bullying” is conduct which subjects a student to insults, taunts, or challenges, whether verbal or physical in nature, which is likely to intimidate and/or provoke a violent or disorderly response from the student being treated in this manner.

Cyberbullying, which is the use of information and communication technologies such as emails, cell phones, social media applications, text messages, instant messaging (IM), defamatory personal web sites, and defamatory online personal polling websites to torment, threaten, harass, embarrass, or otherwise target another student, could also subject a student to discipline.

Generally, there are three distinguishing features of bullying; it is deliberate/intentional, it happens more than once, and there is a marked imbalance of power, which may be physical, intellectual, emotional, or social, between the bully and victim. A person is bullied when he or she is exposed, repeatedly and over time, to negative actions on the part of one or more other persons.

In addition, it is distinct from the normal conflicts of childhood. It is NOT bullying when two students of approximately the same strength, size, or power choose to engage in a fight. Thus, while all acts of bullying are aggressive, not all aggressive acts are bullying.

Examples of prohibited conduct include name-calling, using derogatory slurs, stalking, sexual violence, causing psychological harm, threatening or causing physical harm, threatened or actual destruction of property, or wearing or possessing items depicting or implying hatred or prejudice of one of the characteristics stated above.

Students are encouraged to immediately report bullying. A report may be made orally or in writing to the district complaint manager or any staff member with whom the student is comfortable speaking. All school staff members are available for help with a bully or to make a report about bullying. Anyone, including staff members and parents/guardians, who has information about actual or threatened bullying is encouraged to report it to the district complaint manager or any staff member. Anonymous reports are also accepted by phone call or in writing.

In the course of an investigation, the student may be required to share the content that is reported in order to allow school officials to make a factual determination.

## 6.80 - Student Use of Electronic Devices

---

Please refer to the individual school's handbook addendum for specific information regarding student use of electronic devices.

## 7.10 - Internet Acceptable Use

---

All use of electronic network use must be consistent with the school's goal of promoting educational excellence by facilitating resource sharing, innovation, and communication. These rules do not attempt to state all required or proscribed behavior by users. However, some specific examples are provided. **The failure of any user to follow these rules will result in the loss of privileges, disciplinary action, and/or appropriate legal action.**

**Acceptable Use** - Access to the electronic network must be: (a) for the purpose of education or research, and be consistent with the district's educational objectives, or (b) for legitimate business use.

**Privileges** - The use of the electronic network is a privilege, not a right, and inappropriate use will result in a cancellation of those privileges. The system administrator or building administration will make all decisions regarding whether or not a user has violated these procedures and may deny, revoke, or suspend access at any time. His or her decision is final.

**Unacceptable Use** - The user is responsible for his or her actions and activities involving the network. Some examples of unacceptable uses are:

- Using the network for any illegal activity, including violation of copyright or other contracts, or transmitting any material in violation of any State or federal law;
- Unauthorized downloading of software, regardless of whether it is copyrighted or de-virused;
- Downloading of copyrighted material for other than personal use;
- Using the network for private financial or commercial gain;
- Wastefully using resources, such as file space;
- Hacking or gaining unauthorized access to files, resources, or entities;
- Invading the privacy of individuals, that includes the unauthorized disclosure, dissemination, and use of information about anyone that is of a personal nature including a photograph;
- Using another user's account or password;
- Posting material authored or created by another without his/her consent;
- Posting anonymous messages;
- Using the network for commercial or private advertising;
- Accessing, submitting, posting, publishing, or displaying any defamatory, inaccurate, abusive, obscene, profane, sexually oriented, threatening, racially offensive, harassing, or illegal material; and
- Using the network while access privileges are suspended or revoked.

**Network Etiquette** - The user is expected to abide by the generally accepted rules of network etiquette. These include, but are not limited to, the following:

- Be polite. Do not become abusive in messages to others.
- Use appropriate language. Do not swear, or use vulgarities or any other inappropriate language.
- Do not reveal personal information, including the addresses or telephone numbers, of students or colleagues.
- Recognize that electronic mail (e-mail) is not private. People who operate the system have access to all mail. Messages relating to or in support of illegal activities may be reported to the authorities.
- Do not use the network in any way that would disrupt its use by other users.
- Consider all communications and information accessible via the network to be private property.

**No Warranties** - The school and district make no warranties of any kind, whether expressed or implied, for the service it is providing. The school and district are not responsible for any damages the user suffers. This includes loss of data resulting from delays, non-deliveries, missed-deliveries, or service interruptions caused by its negligence or the user's errors or omissions. Use of any information obtained via the Internet is at the user's own risk. The school and district specifically deny any responsibility for the accuracy or quality of information obtained through its services.

**Indemnification** - The user agrees to indemnify the school and district for any losses, costs, or damages, including reasonable attorney fees, incurred by the school or district relating to, or arising out of, any violation of these procedures.

**Security** - Network security is a high priority. If the user can identify a security problem on the Internet, the user must notify the system administrator or building principal. Keep your account and password confidential. Do not use another individual's account without written permission from that individual. Any user identified as a security risk may be denied access to the network.

**Vandalism** - Vandalism will result in cancellation of privileges and other disciplinary action. Vandalism is defined as any malicious attempt to harm or destroy data of another user, the Internet, or any other network. This includes, but is not limited to, the uploading or creation of computer viruses.

**Telephone Charges** - The District assumes no responsibility for any unauthorized charges or fees, including telephone charges, long-distance charges, per-minute surcharges, and/or equipment or line costs.

**Copyright Web Publishing Rules** - Copyright law prohibits the republishing of text or graphics found on the Web without explicit written permission.

- For each re-publication (on a Web site or file server) of a graphic or a text file that was produced externally, there must be a notice at the bottom of the page crediting the original producer and noting how and when permission was granted. If possible, the notice should also include the Web address of the original source.
- Students engaged in producing Web pages must provide LRC Director with e-mail or hard copy permissions before the Web pages are published. Printed evidence of the status of "public domain" documents must be provided.
- The absence of a copyright notice may not be interpreted as permission to copy the materials. Only the copyright owner may provide the permission. The manager of the Web site displaying the material may not be considered a source of permission.

**Use of Email** - The District's email system, and its constituent software, hardware, and data files, are owned and controlled by the School District. The School District provides email to aid students as an education tool.

- The District reserves the right to access and disclose the contents of any account on its system, without prior notice or permission from the account's user. Unauthorized access by any student to an email account is strictly prohibited.
- Each person should use the same degree of care in drafting an electronic mail message as would be put into a written memorandum or document. Nothing should be transmitted in an e-mail message that would be inappropriate in a letter or memorandum.
- Electronic messages transmitted via the school district's Internet gateway carry with them an identification of the user's Internet "domain." This domain name is a registered domain name and identifies the author as being with the school district. Great care should be taken, therefore, in the composition of such messages and how such messages might reflect on the name and reputation of the school and district. Users will be held personally responsible for the content of any and all electronic mail messages transmitted to external recipients.
- Any message received from an unknown sender via the Internet should either be immediately deleted or forwarded to the system administrator. Downloading any file attached to any Internet-based message is prohibited unless the user is certain of that message's authenticity and the nature of the file so transmitted.
- Use of the School District's email system constitutes consent to these regulations.

    - 1) Will cause substantial disruption of the proper and orderly operation and discipline of the school or school activities;
  - b. Violates the rights of others, including but not limited to, material that is libelous, invades the privacy of others, or infringes on a copyright;

  - e. Is primarily prepared by non-students and distributed in elementary and/or middle schools.<sup>1</sup>

A student or group of students seeking to distribute 10 or fewer copies of the same publication on one or more days to students must distribute such material at times and places and in a manner that will not cause substantial disruption of the proper and orderly operation and discipline of the school or school activities and in compliance with paragraphs 4, 5, 6, and 7.

## **8.10 – Search and Seizure**

---

In order to maintain order safety and security in the schools, school authorities are authorized to conduct reasonable searches of school property and equipment, as well as of students and their personal effects. "School authorities" includes school liaison police officers.

### **School Property and Equipment as well as Personal Effects Left There by Students**

School authorities may inspect and search school property and equipment owned or controlled by the school (such as, lockers, desks, and parking lots), as well as personal effects left there by a student, without notice to or the consent of the student. Students have no reasonable expectation of privacy in these places or areas or in their personal effects left there.

The building principal may request the assistance of law enforcement officials to conduct inspections and searches of lockers, desks, parking lots, and other school property and equipment for illegal drugs, weapons, or other illegal or dangerous substances or materials, including searches conducted through the use of specially trained dogs.

### **Students**

School authorities may search a student and/or the student's personal effects in the student's possession (such as, purses, wallets, knapsacks, book bags, lunch boxes, etc.) when there is a reasonable ground for suspecting that the search will produce evidence the particular student has violated or is violating either the law or the school or district's

student rules and policies. The search will be conducted in a manner that is reasonably related to its objective of the search and not excessively intrusive in light of the student's age and sex, and the nature of the infraction.

School officials may require a student to cooperate in an investigation if there is specific information about activity on the student's account on a social networking website that violates the school's disciplinary rules or school district policy. In the course of the investigation, the student may be required to share the content that is reported in order for the school to make a factual determination.

### **Seizure of Property**

If a search produces evidence that the student has violated or is violating either the law or the school or district's policies or rules, evidence may be seized and impounded by school authorities, and disciplinary action may be taken. When appropriate, evidence may be transferred to law enforcement authorities.

In the case of a conflict between IHSA and this Code, the most stringent rule will be enforced.

In order to be eligible to participate in extracurricular and athletic activities, a student must be passing five or more classes and cannot be failing two or more of their courses at the time eligibility is determined. A school student record is any writing or other recorded information concerning a student and by which a student may be identified individually that is maintained by a school or at its direction or by a school employee, regardless of how or where the information is stored, except for certain records kept in a staff member's sole possession; records maintained by law enforcement officers working in the school; video and other electronic recordings that are created in part for law enforcement, security, or safety reasons or purposes; and electronic recordings made on school buses. The Family Educational Rights and Privacy Act (FERPA) and the Illinois Student Records Act afford parents/guardians and students over 18 years of age ("eligible students") certain rights with respect to the student's school records. They are:

**1. The right to inspect and copy the student's education records within 15 school days of the day the District receives a request for access.**

The degree of access a student has to his or her records depends on the student's age. Students less than 18 years of age have the right to inspect and copy only their permanent record. Students 18 years of age or older have access and copy rights to both permanent and temporary records. A parent/guardian or student should submit to the building principal a written request that identifies the record(s) he or she wishes to inspect. The principal will make arrangements for access and notify the parent/guardian or student of the time and place where the records may be inspected. The District charges \$.35 per page for copying but no one will be denied their right to copies of their records for inability to pay this cost.

These rights are denied to any person against whom an order of protection has been entered concerning the student.

**2. The right to request removal from the student's academic transcript one or more scores received on college entrance examinations.'**

A parent/guardian or eligible student may ask the District to remove certain scores of college entrance exams from their student's academic transcript. Students often take college entrance examinations multiple times in order to improve their results. Test publishers provide the results from each examination taken to the student's high school. Schools must include each of these scores on the student's transcript, which may result in academic transcripts having multiple scores from a single college entrance exam. A parent/guardian or eligible student may not want certain scores to be sent to postsecondary institutions to which the student applies. To request the removal of scores on college entrance examinations, the parent/guardian or eligible student must submit a written request stating the name of each college entrance examination that is the subject of the request and the dates of the scores that are to be removed.

**3. The right to permit disclosure of personally identifiable information contained in the student's education records, except to the extent that the FERPA or Illinois School Student Records Act authorizes disclosure without consent.**

Disclosure without consent is permitted to school officials with legitimate educational or administrative interests. A school official is a person employed by the District as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the School Board; a person or company with whom the District has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or any parent/guardian or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

Upon request, the District discloses education records without consent to officials of another school district in which a student has enrolled or intends to enroll, as well as to any person as specifically required by State or federal law. Before information is released to these individuals, the parents/guardians or eligible student will receive prior written notice of the nature and substance of the information, and an opportunity to inspect, copy, and challenge such records.

Academic grades and references to expulsions or out-of-school suspensions cannot be challenged at the time a student's records are being forwarded to another school to which the student is transferring. Disclosure is also permitted without consent to: any person for research, statistical reporting or planning, provided that no student or parent/guardian can be identified; any person named in a court order; appropriate persons if the knowledge of such information is necessary to protect the health or safety of the student or other persons; and juvenile authorities when necessary for the discharge of their official duties who request information before adjudication of the student.

**4. The right to a copy of any school student record proposed to be destroyed or deleted.**

The permanent record is maintained for at least 60 years after the student transfers, graduates, or permanently withdraws. The temporary record is maintained for at least 5 years after the student transfers, graduates, or permanently withdraws. Temporary records that may be of assistance to a student with a disability who graduates or permanently withdraws, may, after 5 years, be transferred to the parent/guardian or to the student, if the student has succeeded to the rights of the parent/guardian. Student temporary records are reviewed every 4 years or upon a student's change in attendance centers, whichever occurs first.

If you wish to exercise this option, notify the building principal.
